

## Developing Questions

Name: \_\_\_\_\_

Each student is responsible for developing and answering four questions about their topic. Students who are attempting for Advanced Proficient will need to ask at least six (but no more than ten) questions. Please encourage higher-level questions that require in-depth answers, not simple yes or no questions. Questions are due on Wednesday, January 18<sup>th</sup>.

# Your Project Topic!!!

Topic: \_\_\_\_\_

Remember, five questions are due on Thursday, January 18<sup>th</sup>!  
Please use the provided sheet.

### Example: Clouds

Acceptable Questions	Unacceptable Questions
<ul style="list-style-type: none"><li>• How are clouds formed?</li><li>• How do scientists describe different types of clouds?</li><li>• What is the process required to make a cloud release moisture?</li><li>• Where do clouds form and why?</li></ul>	<ul style="list-style-type: none"><li>• What are people who study clouds called?</li><li>• Do clouds make rain?</li><li>• Are clouds white?</li><li>• Can you touch a cloud?</li></ul>
